YOUR ULTIMATE *Getaway*

Norwegian Getaway takes a great cruise vacation to the next level. Indulge in three dedicated, chef-inspired seafood restaurants. Discover remarkable entertainment, including the Broadway shows Million Dollar Quartet and Burn the Floor. Splash around at the Aqua Park with Free Fall - the fastest waterslide at sea. Or take a walk on the Plank at the ropes course. All this makes a cruise on Norwegian Getaway the ultimate vacation.

Set sail from Miami to the Dominican Republic and Great Stirrup Cay, the Caribbean's premier island destination. Here you can relax on an exclusive beach or enjoy the thrills of zip-lines across the island. Then discover Puerto Plata, known for its gold-sand beaches - like Playa Dorada - and a cast-iron lighthouse that is now part of a revitalized historic district.

Ports of Call

Explore South Beach in Miami or indulge in a café Cubano from a café on Calle Ocho. Then enjoy the island life at Great Stirrup Cay, Norwegian's exclusive island paradise, where you can settle into the beautiful beaches before enjoying a delicious meal. After relaxing on the warm sands of Playa Dorada, be sure to hop aboard the Puerto Plata cable car for a majestic aerial view of the Dominican Republic.

Miami

Miami's amazing medley of cultures and flashy urban settings makes it a scene to be seen. Visit the trendy Art Deco district of South Beach, Calle Ocho in Little Havana, the super-upscale neighborhoods of Coconut Grove and Coral Gables and the unique ecosystem of the Everglades.

Great Stirrup Cay

This tropical paradise is just for you. Stroll along soft, white-sand beaches and enjoy many activities. Snorkel and see underwater delights, kayak in crystal-clear water, then get revved up on a WaveRunner adventure. The fun is endless here. Grab a bite at the beach buffet and simply relax in your beachfront cabana.

Puerto Plata

Puerto Plata is the ninth largest city in the Dominican Republic. For spectacular city views, take a ride up the Pico Isabel de Torres mountain which stands over 2,600 feet high. History buff? Head to the Amber Museum, a museum filled with a unique collection of valuable Dominican amber that has hardened for millions of years capturing many fossils of plant and insect life.
